

NEOLT

Large Format Trimming Machines from

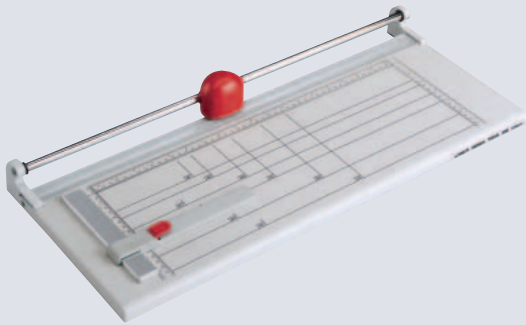

"Perfectly designed with you in mind". This is the driving force behind **es-te** Reproservice & Vertriebs GmbH. For over a decade **es-te** has focused on the design and manufacture of heavy duty, long life office automation and equipment for office efficiency, and especially the **large format automatic plan folders** and **automatic tab applicators**. **es-te** is market leader in document fini-

shing in the home market and it also supplies and services companies in over 20 countries. The **es-te** complete range of equipment for the office of today includes high quality, large format printers, copiers and trimmers - **backed up by excellent support & service**. We shall be pleased to assist you from stage one.

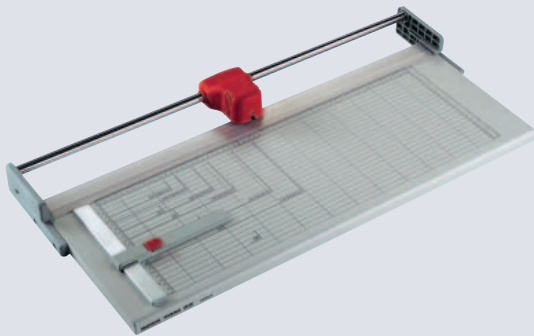

MANUAL

simple and precise

Self sharpening high quality stainless steel rotary blades stay sharp and ensure crisply cut edges. The integral clamp holds the item to be cut firmly in position and ensures a precision cut the full length.

1 Light Desk Trim Trimming capacity: **0.4** mm

2 Desk Trim Trimming capacity: **0.6** mm

2a Desk Trim Special Trimming capacity: **0.8** mm

3 Manual Trim Trimming capacity: **0.8** mm

4 Light Power Trim Trimming capacity: **1.5** mm

* Power Trim Plus was designed specially for trimming laminated materials.

Perfect Trimming

Every material and application requires its own cutter blades and techniques. That's the recipe for a perfect cut. NEOLT trimmers are **specially designed for various applications**. Every one has its special advantages, whether it was designed for architects plans, truck plans, banners, adhesive films, special papers, posters or large format photo prints. The big advantage is that with es-te

you will find the right NEOLT trimmer in a single range - perfect for your job. Fast precision trimming. Totally reliable - always. No compromises. **Just be guided by the trimming capacity**. Also available: cutters for foam plastics up to 30 mm thick (not illustrated). Just contact us for further information.

ELECTRICAL

safe and convenient

Ideal for precision trimming rigid and fabric reinforced materials with convenient hand or foot control. Non-dazzle lights make exact positioning child's play. Transparent protective guards mean you can see the job easily - and in absolute safety.
